Thank you very much for your interest in the above course. It will be run at Leeson House in Langton Matravers near Swanage. The course is designed to allow enough time for the classwork and the diving without being too intensive. Our aim is to show people with little or no experience in marine life the variety of animals, fish and plants that we have around our coastline.

The classroom work is set out to guide the complete novice in marine identification from having no idea to hopefully being able to classify it as plant, animal or fish. The notes supplied are very detailed and well written together with the vast number of slides should all help to make identification as easy as possible.

During the dive on Saturday we collect small samples and put them into a container, e.g. plastic bag or small ice cream tub. These are then studied later at Leeson House using magnifying glasses or microscopes [this is quite an eye opener]. A dive on Sunday can be planned by the students on the course if time permits.

The cost of the course is **£80** and this covers the use of the classroom, parking at Leeson House, MCS course notes and Tea / Coffee on both days.

A deposit of **£20** is required and the balance due on or before the course. Please make all cheques payable to: **MCS (S.E.)** and forwarded to me at the above address.

**Please Note** to reduce costs to the Society no confirmation of booking will be sent, but you will receive confirmation one month in advance that the course will run.

If you require any further information please do not hesitate to contact me.
